

# PARAMOUNT

**Balancing the needs of today's PCB manufacturers for quality and cost savings.**

Paramount engages in the sourcing and distribution of copper clad laminates and printed circuit board materials. It offers high quality materials, stocking options, and product support to PCB manufacturers in North America.

Growing from a regional to a nationwide sourcing and distribution mainstay, 2014 saw Paramount celebrate 20 years in the printed circuit board industry. Today Paramount remains committed to creativity and agility to better serve its clients.

Anticipating industry needs and swiftly adapting to economic volatility, Paramount is a strategic partner for printed circuit board manufacturers.
